

Green Roads for Water Training in Sudan

Wad Madani, 15-20 January 2023

Group works

Groups Day1: Zonal

Group 1: Areas of intensive Irrigation (Jazeera, Rahada,)

Group 2: Rainfed agriculture area (Qadarif,)

Group 3: The agro-pastoral areas (Darfur, west Sudan,)

Points of Discussion:

- Brainstorming on what GR4W means for that particular system.
- The need for GR4W
- Existing conditions.
 - Existing GR4W practice (type, lessons, ...)
 - Enabling factors – roads (existing and planned, climate, ...)
 - Challenges
- Potential for GR4W
- Possible interventions

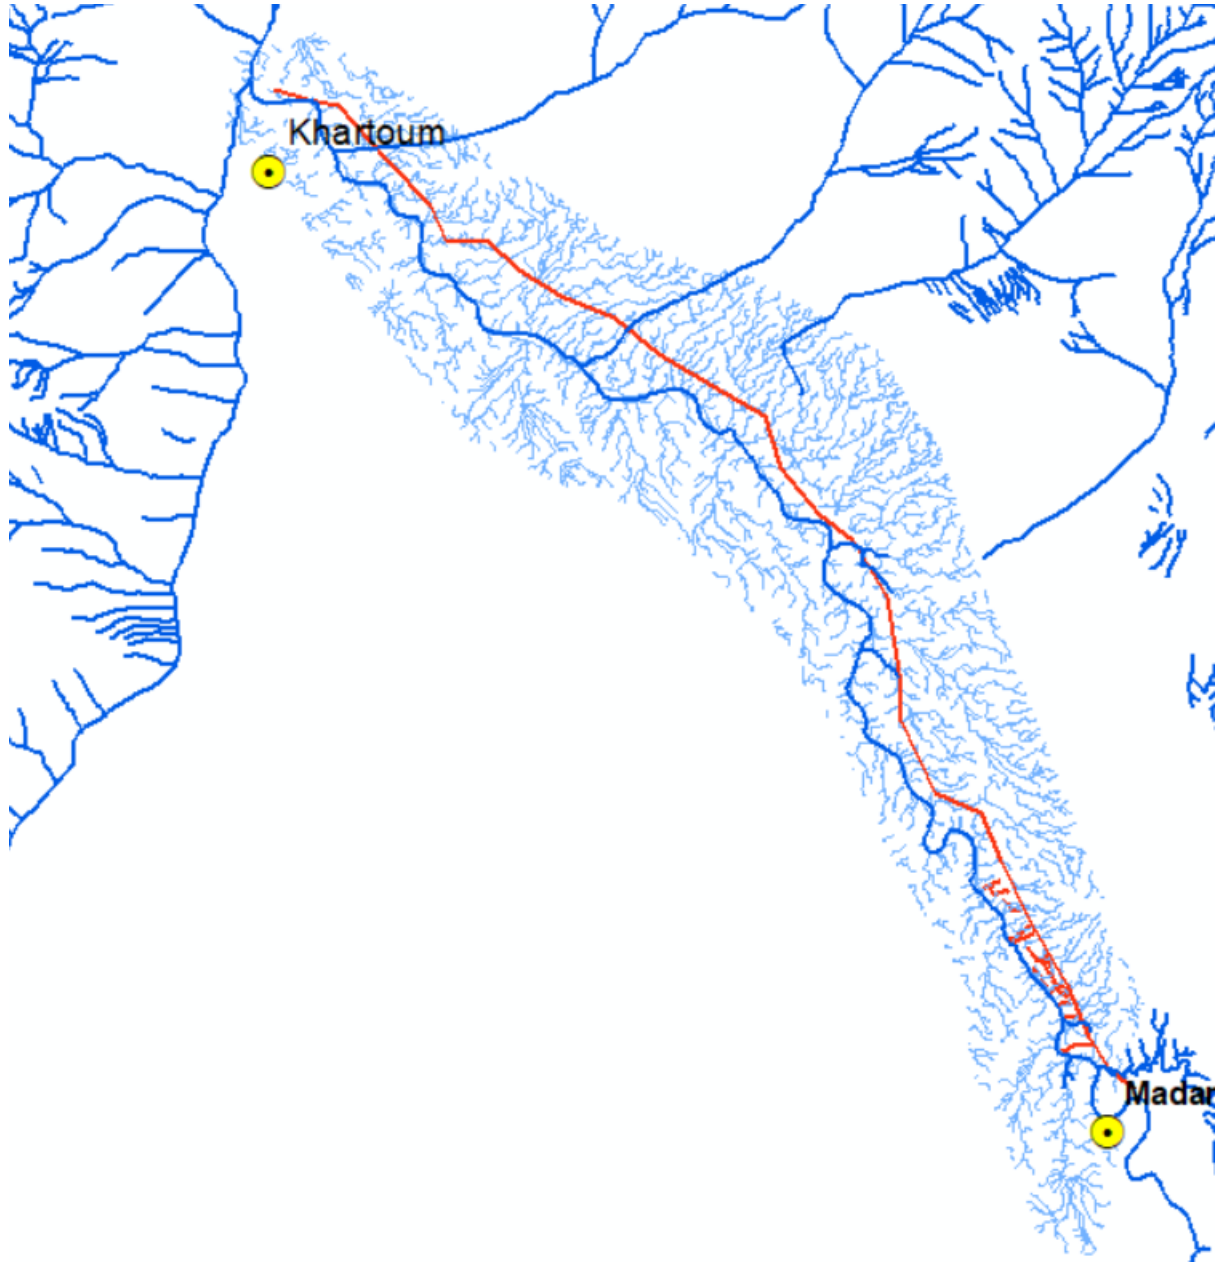

Groups Day2: Sectoral

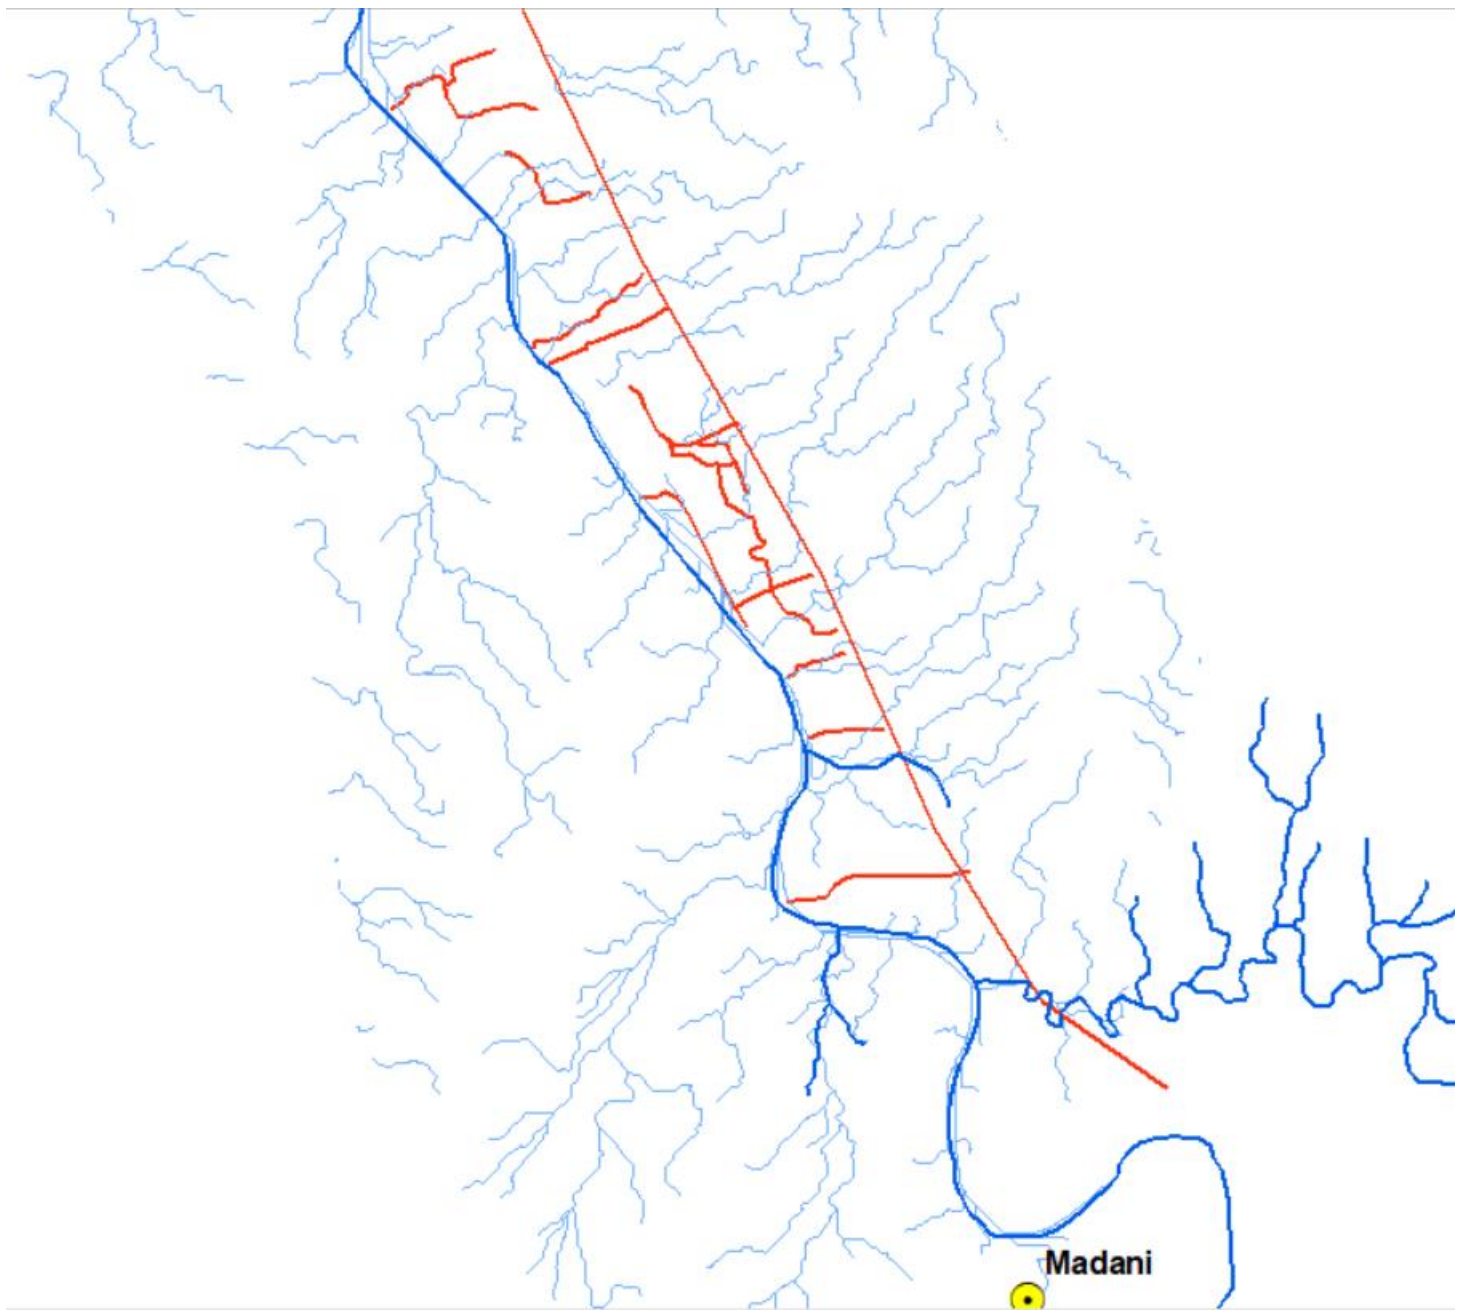

- Implementation of GR4W by the road sector
- Implementation of GR4W by the water and irrigation sector
- Implementation of GR4W by the agriculture and livestock sector
- Implementation of GR4W by the transport and infrastructure sector

(We use the table as a guide)

Synthesis by a Prof. Obu Obieda!!!

Thank you!
